1. **Objectives:**

Following are the objectives of the mentoring policy

1) Counseling the students for their academic, non-academic issues
2) Emphasizing and motivating students for their overall development

2. **Policy:**

The policy is used for analyzing and solving mentee's academic and personal problems by keeping appropriate track. During this process of mentoring the parents are also involved, whenever required. This has helped in transparent record keeping of the mentee and helps mentees for the overall progress. The documentation is done using the format mentioned under point 5 below. A group of 20 to 25 mentees is allotted to one mentor. This has helped to the mentees to interact with the mentor comfortably. Mentor to mentee ratio is calculated by total number of students divided by total number of full-time teachers.

3. **Schedule of Meetings:**

Mentor and mentees meeting is decided by the mentor along-with the class teacher. Mentor can conduct the meetings as per requirement. However, mentees are encouraged to take initiate for meeting with mentors.

4. **Role and Responsibilities of Mentor**

Each mentee has different requirement of mentoring. The mentees require varied amounts of attention, motivation, guidance and advice. Some students feel comfortable and confident in approaching the mentors, wherein some may be shy and reluctant to seek help. A good mentor is the one who can understand the individual need of a student.

It is expected that the mentor should tackle the academic and personal problems of the students. Through mentoring, the mentor should motivate the students and boost the confidence level of the students. In order to have an effective mentoring and to build faithful relations with mentees, the mentor must try to remove barriers in communication and must give emotional support to mentees.
