NOTICE

All the students of SE, TE and BE are hereby informed that Unit Test - 1 will be schedule from 18th October 2021-Monday to 22th October 2021-Friday. The details are as follows:

Sr. No.	Date & Day	Class	Time	Subject
1.	18 th October 2021 Monday	SE	03.00PM to 03.30PM	Discrete Mathematics (210241)
2.		TE	03.30PM to 04.00PM	Elective I- Internet of Things and Embedded Systems (310245A)
3.		BE	03.30PM to 04.00PM	High Performance Computing (410241)
4.	19 th October 2021 Tuesday	SE	03.00PM to 03.30PM	Fundamentals of Data Structures (210242)
5.		TE	03.30PM to 04.00PM	Computer Networks and Security (310244)
6.		BE	03.30PM to 04.00PM	Artificial Intelligence and Robotics (410242)
7.	20 th October 2021 Wednesday	SE	03.00PM to 03.30PM	Object Oriented Programming (210243)
8.		TE	03.30PM to 04.00PM	Systems Programming and Operating System (310243)
9.		BE	03.30PM to 04.00PM	Data Analytics (410243)
10.	21 st October 2021 Thursday	SE	03.00PM to 03.30PM	Computer Graphics (210244)
11.		TE	03.30PM to 04.00PM	Database Management Systems (310241)
12.		BE	03.30PM to 04.00PM	Elective I-Data Mining and Warehousing (410244D)
13.	22 nd October 2021 Friday	SE	03.00PM to 03.30PM	Digital Electronics and Logic Design (210245)
14.		TE	03.30PM to 04.00PM	Theory of Computation (310242)
15.		BE	03.30PM to 04.00PM	Elective II-Software Testing and Quality Assurance (410245B)

Instructions:

1. Attendance is compulsory for all students. Strict action will be taken against the absent students.
2. Syllabus - Unit No. 2 & Unit No. 3.
3. Total No of Questions-20 (Each question carries 1 mark)
4. Total Marks - 20 (Note - Unit No 2 for 10 Marks & Unit No 3 for 10 Marks)
5. Nature of Examination - MCQ.
6. Respective Faculty will share question paper to students online during above schedule on LMS.
7. Performance in these test will be consider for your final SPPU term work assessments.
8. At the same time, along with the Unit Test schedule, your regular theory/practical lectures will also be engaged as per the given time table.

Details of the event:

The department of Mechanical Engineering had organized seminar on “**Human Ethics**” for the benefit of pre-final year students of D Y Patil School of Engineering. Mr. Kaustubh Dhawale Alumni of Mechanical Dept, DYPSOE) were the resource persons for this training program.

During the formal inaugural session, Prof.Pooja R Nawathe, Coordinator of Alumni welcomed the gathering and also introduced resource persons to the students.

He explain Professional ethics are values that manage the attitude of a person or group of corporate/professional environment. It also provide guidelines on an environment on how a person should act towards other people and institutions Education is clearly about understanding (what to do?), learning skills (how to do?) and practicing the understanding & skills leading to fulfilment of one’s purpose. It is not just about learning skills (how to do?). The subject which deals with “what to do” and “what not to do” is called value education – it facilitates development of Right Understanding. The subject which deals with “how to do” is called technical education or professional education – it facilitates development of skills. As there is a complementarity among them and are required, the priority need to be values, than skills. The impression on students on professional ethics are • Students respect professionalism • Students disagree dismissal of an employee who are against law • Students respect code of ethics Thus, education has an essential impact on the conduct and perception of the ethics of future professionals. Our college conducts a course to teach these skills through program. They include:

1. Positive Thinking

Positive thinking can help a personality in numerous ways. It leads an individual toward confidence and helps in looking for fine things in life. It brings in an innovative perspective that can craft all the difference in the world.

2. Self Esteem

Self-esteem contributes to a noteworthy position in ones motivation and triumph throughout the life. Low self-esteem may seize one back from succeeding in their respective avenues. On a contrast, having a strong self-esteem can help one accomplish because the individual moves across in his life with a positive attitude and believe in accomplishment of goals.

3. Self-Worth

Self-worth is the sense that one has positive qualities and has achieved good milestones in life. It is the sense of an individual’s own importance or value as a person. However, there are numerous paths for a human being to value themselves and measure their worth as a human being, and several of these are more psychologically advantageous than others.

4. Self Confidence

One may be affluent and intelligent. But if one does not possess confidence then he cannot come out and speak. Self-confidence is important than the hard work. It can be obtained through practice

5. Goal Setting

Goal setting is the procedure of identifying something that you want to achieve and institute measurable goals in time bounded frames. It involves the growth of an action plan planned to stimulate and guide an individual to boost efficiency.

6. Time Management

“Until we can manage time, we can manage nothing” – Peter Drucker “Life and time are the world’s best teachers. Life teaches us to make good use of time and time teaches us the value of life”- APJ Abdul Kalam Time management is the route of classifying and scheduling how to manage time amid specific activities. Good time management allows an individual to work smarter. There are various methods and skills involved in time management. Few of them include avoiding delay, organizing work-life balance, utilizing waiting time productively; get ready with a ‘To-do list’, prioritizing tasks, and reinstating useless activities with productive activities.

7. Empathy

Empathy is the skill to comprehend another person’s difficulties and point of vision. It is the act of understanding, being responsive of, being aware to, and vicariously experiencing the thoughts, and experience of another of either the past or present without encompassing the feelings, thoughts, and practice fully conversed in a purposive explicit manner

8. Body language

Body language is an important communication skill. It is the unspoken factor of communication that we use to disclose our true emotions and feelings that includes posture, facial expressions and gestures. Positive body language adds vigor to the verbal ideas or messages that one wants to express, it will also help an individual to avoid sending confusing or mixed signals.

9. Team work

It is very significant to have an efficient team leader who motivates the team towards the goal directed behavior. Effective Teamwork includes: • Understanding team goal and objectives • Knowing the roles and responsibilities in the team • Respecting others thoughts, opinions, perspectives • Sharing the knowledge and expertise • Appreciating others contribution • Resolving conflicts with empathy Team work makes Dream works.

10. Decision making

Decision making is a prime skill and is mainly important if you want to be an successful leader. It involves the procedure of deciding between two or more courses of action. In daily decisions, one must decide his course of action in a split second. Decision making skill encompasses foresight, emotional intelligence, intuition, critical thinking and self control. It includes procedures like defining the problem, identifying the alternatives, making the decision and employing the decision. It is very important to evaluate the made decision as it will help in future decision making processes and events.

11. Resume Writing

A resume is a written record of your contact details, skills, skills and employment history. It establishes your details and appears to be appealing and convincing. It reflects and symbolizes an individual. Hence it is very vital to methodically draft the document with the adequate information concerning ones professional life. It is a skill, and specialists in resume writing have taken it as a full time profession too. But individuals have to be skilled to draft their own resume as it is going to be advantageous for their careers and only they know themselves better

12. Interview Skills

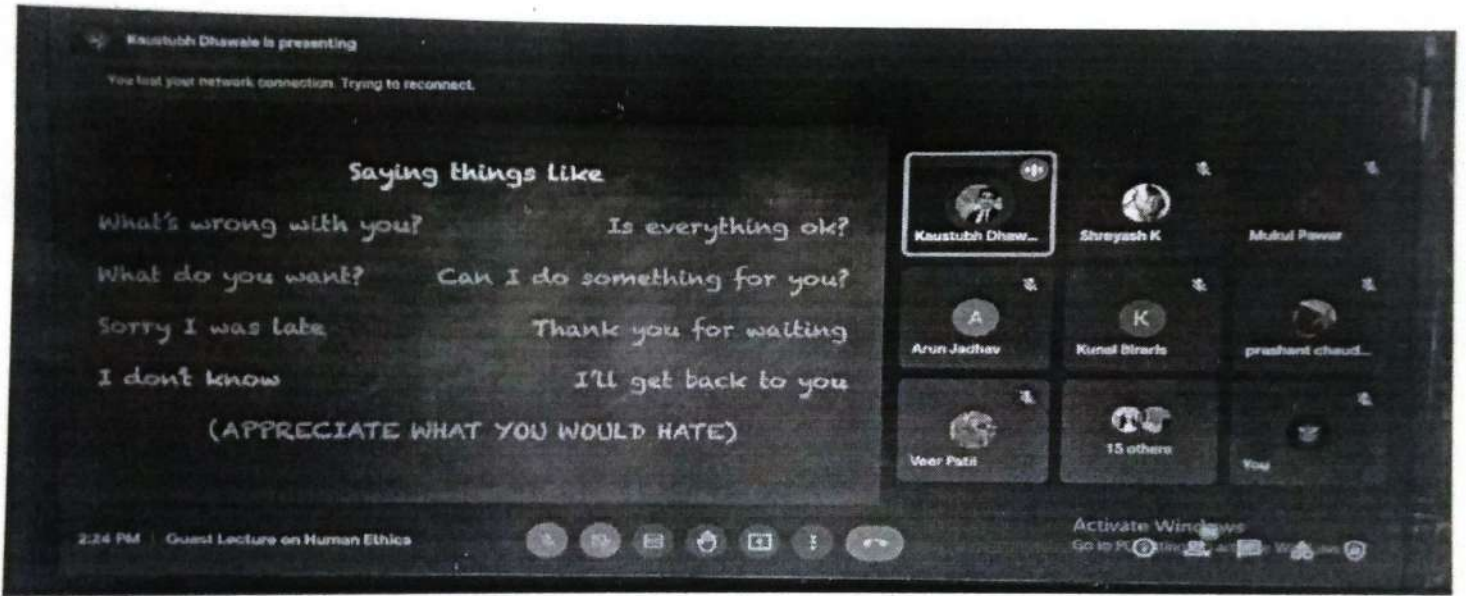

Interviewing for an occupation needs a good amount of self-confidence, panache and interpersonal communication sense. The way in which you reflect yourself during an interview give hiring managers a first notion of you as a probable staffer, and set the quality for how you would perform in an daily capacity. Interview skills for setting yourself separately from your competition include advance preparation and research, in-depth information of the company, and a inclusive understanding of the duties of the role you're seeking. Some of the to do things in an interview include: • Organizing the materials required for interview • Good dressing sense • Being cheerful and expressive • Having a positive body posture

13. Leadership Quality

The aptitude to lead relies on a number of key skills, but different leaders have different styles of leadership. Leadership in itself is a constellation of various skill sets like : • Effective Communication • Motivation • Delegation • Trustworthiness • Creativity • Feedback • Responsibility • Decision Making • Strategic Planning • People Management • Persuasion and Influence • Change Management
