I've invited you to fill out a form:

Workshop on Professional Training in CNC programming

Dear Students

You know this time SPPU has mentioned a new subject (in fact the some syllabus is from Manufacturing Process-II) entitled "Machining Science & Technology".

In the theory, they mentioned one unit as "CNC Programming" and the content is as below.

CNC Programming-CNC part programming adaptable to suitable controller. Steps in developing CNC part program. CNC part programming for Lathe Machine – Threading & Grooving cycle (Canned cycle). CNC part programming for Milling Machine - Linear & circular interpolation, milling cutter, tool length compensation & cutter radius compensation. Pocketing, contouring & drilling, subroutine and Do loop using canned cycle.

They have also mentioned a new Term Work practical entitled "Digital Manufacturing Laboratory" in which there are a few practicals related to CNC as below.

Practical 1 - Preparing manual CNC part program using G Codes and M Codes as per ISO (DIN 66025) and RS274 standards for CNC lathe/mill machine.

10/5/21, 2:01 PM

Ajeenkya D Y Patil Group Mail - Fwd: TE- Workshop on Professional Training in CNC programming

Practical 2 - Machining of mechanical component using CNC machine (Lathe/Mill/HMC/VMC).
Manufacturing drawing with appropriate geometrical and dimensional tolerances, detailed process planning to be included.

Practical 3 - Study on CNC retrofitting and reconditioning

In order to cover the above content, we plan to conduct a 10 hrs. Workshop (2 hrs. every day from 1.00 to 3.00 or 2.00 to 4.00. We will let you know tomorrow the exact schedule) in collaboration with CNC Tech, Pune a well know institute in Pune, for CNC and VMC programming. They have conducted many workshops at Bharat Forge, SECO tools and many more industries.

In fact, it will be a basic training in the field of CNC which would cover syllabus & also beneficial for future career. The last session would be on the career opportunities in CNC Programming.

This workshop is a paid workshop. Usually they charge in Lacks for corporate training but we requested to take minimum amount and they have accepted Rs. 200/- Per student. After discussing with Principal, our institute is ready to pay 100/- per students (50% of the fees per student). So each student has to pay only 100/- (One of the students needs to collect the amount and handover to CNC tech at the end of the program).

One more benefit is that CNC tech would give a certificate of the same which would strengthen your CV and you can join the advanced level CNC programming courses of CNC Tech at the subsidized rates.

Please fill the attached google sheet and let us know your opinion. All our efforts are for your knowledge enhancement and skill upgradation.

Speaker- Mr. Ravindra Pillay

CNC Technology Trainer

Time:- 2.00 to 4.00 pm

Date:- 14 Sept. to 29 Sept. 2021

Google Meet Link:-

Shri. Ravindra Pillay (ex FANUC & ex VOLTAS MachineTools), Extensively trained in Germany, Switzerland & Japan on Various sophisticated CNC machines and control systems.

Since 1980, he has been installing and commissioning various European machines and training the industry throughout the country. Started his career as Service Engineer at Voltas, then at Fanuc as Manager Application. And then he has been the Country Manager for SESCOI India - a CAD-CAM software company, Regional Director of Zenith machine tool. He also started green field company in Bangalore.

At CNC Tech, since 2000, he has been training school dropouts to BE, MTech & PhD, an fresher to highly experienced engineers, College professors to Entrepreneurs. He trains students on CNC Programming, Operation and Job Setting on FANUC, Siemens and Heidenhain. He personally TRAINS individual non-technical students to stand on their own feet and experienced engineers to independently handle CNC Turning, VMC / HMC machines.

The outcomes of 15 days professional course are as below:-

Participants will know;

1. Fundamentals of CNC machines. All terms and nomenclatures of CNC control system
2. CNC machine & its structure, configuration & Application.
3. Will confidently be able to write SAFE and Perfect CNC programs
4. Cutting technology - Cutting Speed, Spindle Speed, Cutting Feed & Depth-of-Cut.
5. Will be able to do Job setting, Tool offsets, Wear offset, etc.
6. After CNC Turning, all the above for VMC / HMC too could be done.

He has covered all the theoretical and practical part of CNC Programming as per syllabus with an industry orientation.

EVENT REPORT OF BASIC AND ADVANCED ETABS ADD ON COURSE

Academic Year: 2021-2022

Semester-I

Name of the event: 'BASICS AND ADVANCED ETABS'

Date and Time	30 TH August to 30 th November 2021 08:00am to 09:00 am
Event Venue	Online platform Microsoft team
Organized by	Department of Civil Engineering
Targeted Audience	85 Numbers
Resource Person	Prof Prasad R Gayake (Etabs Tutor)

Event Contents:

1. To train students about the design of Reinforced and Steel Structures by using Etabs 17 and 19 version software
2. To explain and analyzed the building from define the material, sections and load.
3. To analyzed a G+5 Structures with calculating its number of bars, area of steel and spacing of bar
4. To provide the steps about the Design of Earthquake Resistant structures like Shear wall

Program Outcome: -

1. Understand all the drawing tools and design tools of any simple beam or compound beam
2. Understand all the drawing tools and design tools such as Define, Assign and selection of the section for applying any type of load in RC Structure.
3. After understanding the tools related to RC Structure participants were able to design steel structures like roof truss, frame structures etc.
4. Understand the Seismic Analysis by using Linear Static Method , Response spectrum method , Time history anlysis of Shear Wall or other earthquake structures.

Any suggestions

55 responses

It was good learning something new. It would have been more fun If it was offline classes

As such just the timings

Please keep timing of class @ 7 or 8 pm in the evening or in the morning @ 8:30 am minimum.

None

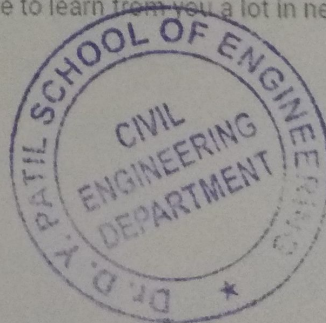

Pls arrange these type of courses. They Gives more knowledge.

Try to take it physically

Thank you for giving us the opportunity to learn something new, and hope to learn from you a lot in near future.

Take one lecture on job oriented softwares of civil engineering.

Nice Content

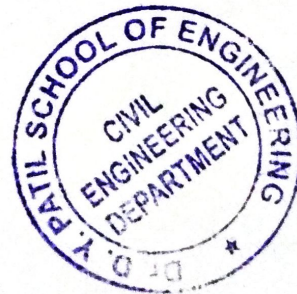

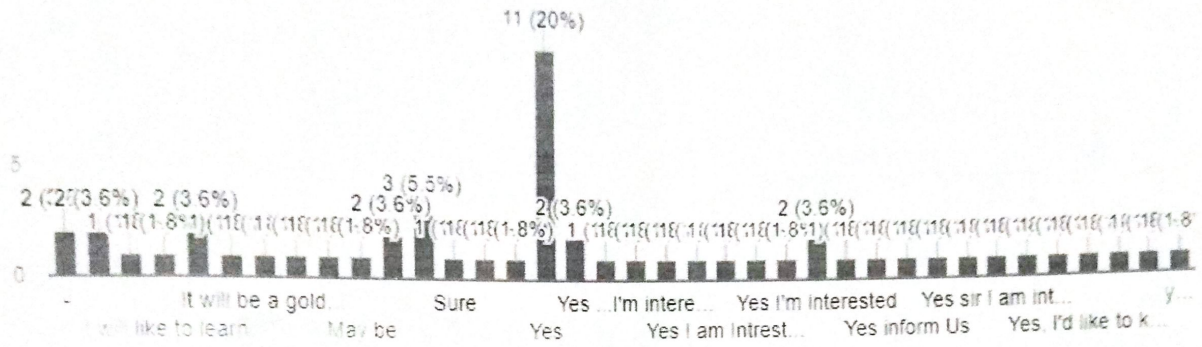

5.

Very soon I will be teaching Tekla and RCDC , if interested then please type your views
