### **Details of the event:**

The department of Mechanical Engineering had organized seminar on “**Human Ethics**” for the benefit of pre-final year students of D Y Patil School of Engineering. Mr. Kaustubh Dhawale Alumni of Mechanical Dept, DYPSOE) were the resource persons for this training program.

During the formal inaugural session, Prof.Pooja R Nawathe, Coordinator of Alumni welcomed the gathering and also introduced resource persons to the students.

He explain Professional ethics are values that manage the attitude of a person or group of corporate/professional environment. It also provide guidelines on an environment on how a person should act towards other people and institutions Education is clearly about understanding (what to do?), learning skills (how to do?) and practicing the understanding & skills leading to fulfilment of one’s purpose. It is not just about learning skills (how to do?). The subject which deals with “what to do” and “what not to do” is called value education – it facilitates development of Right Understanding. The subject which deals with “how to do” is called technical education or professional education – it facilitates development of skills. As there is a complementarity among them and are required, the priority need to be values, than skills. The impression on students on professional ethics are • Students respect professionalism • Students disagree dismissal of an employee who are against law • Students respect code of ethics Thus, education has an essential impact on the conduct and perception of the ethics of future professionals. Our college conducts a course to teach these skills through program. They include:

#### **1. Positive Thinking**

Positive thinking can help a personality in numerous ways. It leads an individual toward confidence and helps in looking for fine things in life. It brings in an innovative perspective that can craft all the difference in the world.

#### **2. Self Esteem**

Self-esteem contributes to a noteworthy position in ones motivation and triumph throughout the life. Low self-esteem may seize one back from succeeding in their respective avenues. On a contrast, having a strong self-esteem can help one accomplish because the individual moves across in his life with a positive attitude and believe in accomplishment of goals.

#### **3. Self-Worth**

Self-worth is the sense that one has positive qualities and has achieved good milestones in life. It is the sense of an individual’s own importance or value as a person. However, there are numerous paths for a human being to value themselves and measure their worth as a human being, and several of these are more psychologically advantageous than others.

#### 4. Self Confidence

One may be affluent and intelligent. But if one does not possess confidence then he cannot come out and speak. Self-confidence is important than the hard work. It can be obtained through practice

#### 5. Goal Setting

Goal setting is the procedure of identifying something that you want to achieve and institute measurable goals in time bounded frames. It involves the growth of an action plan planned to stimulate and guide an individual to boost efficiency.

#### 6. Time Management

“Until we can manage time, we can manage nothing” – Peter Drucker “Life and time are the world’s best teachers. Life teaches us to make good use of time and time teaches us the value of life”- APJ Abdul Kalam Time management is the route of classifying and scheduling how to manage time amid specific activities. Good time management allows an individual to work smarter. There are various methods and skills involved in time management. Few of them include avoiding delay, organizing work-life balance, utilizing waiting time productively; get ready with a ‘To-do list’, prioritizing tasks, and reinstating useless activities with productive activities.

#### 7. Empathy

Empathy is the skill to comprehend another person’s difficulties and point of vision. It is the act of understanding, being responsive of, being aware to, and vicariously experiencing the thoughts, and experience of another of either the past or present without encompassing the feelings, thoughts, and practice fully conversed in a purposive explicit manner

#### 8. Body language

Body language is an important communication skill. It is the unspoken factor of communication that we use to disclose our true emotions and feelings that includes posture, facial expressions and gestures. Positive body language adds vigor to the verbal ideas or messages that one wants to express, it will also help an individual to avoid sending confusing or mixed signals.

#### 9. Team work

It is very significant to have an efficient team leader who motivates the team towards the goal directed behavior. Effective Teamwork includes:

- Understanding team goal and objectives
- Knowing the roles and responsibilities in the team
- Respecting others thoughts, opinions, perspectives
- Sharing the knowledge and expertise
- Appreciating others contribution
- Resolving conflicts with empathy

Team work makes Dream works.

### 10. Decision making

Decision making is a prime skill and is mainly important if you want to be an successful leader. It involves the procedure of deciding between two or more courses of action. In daily decisions, one must decide his course of action in a split second. Decision making skill encompasses foresight, emotional intelligence, intuition, critical thinking and self control. It includes procedures like defining the problem, identifying the alternatives, making the decision and employing the decision. It is very important to evaluate the made decision as it will help in future decision making processes and events.

### 11. Resume Writing

A resume is a written record of your contact details, skills, skills and employment history. It establishes your details and appears to be appealing and convincing. It reflects and symbolizes an individual. Hence it is very vital to methodically draft the document with the adequate information concerning ones professional life. It is a skill, and specialists in resume writing have taken it as a full time profession too. But individuals have to be skilled to draft their own resume as it is going to be advantageous for their careers and only they know themselves better

### 12. Interview Skills

Interviewing for an occupation needs a good amount of self-confidence, panache and interpersonal communication sense. The way in which you reflect yourself during an interview give hiring managers a first notion of you as a probable staffer, and set the quality for how you would perform in an daily capacity. Interview skills for setting yourself separately from your competition include advance preparation and research, in-depth information of the company, and a inclusive understanding of the duties of the role you're seeking. Some of the to do things in an interview include: • Organizing the materials required for interview • Good dressing sense • Being cheerful and expressive • Having a positive body posture

### 13. Leadership Quality

The aptitude to lead relies on a number of key skills, but different leaders have different styles of leadership. Leadership in itself is a constellation of various skill sets like : • Effective Communication • Motivation • Delegation • Trustworthiness • Creativity • Feedback • Responsibility • Decision Making • Strategic Planning • People Management • Persuasion and Influence • Change Management

Personality development is gaining more and more importance because it enables students to create a good impression about themselves on others and helps them to build & develop relationships for career growth.

It will be arranged on Thursday 25th Nov 2021 without hampering the academic activity.

Resource person is Prof. Komal Jakotiya of the Computer Department DYPSOE.

We Request you to give us permission for the same so that it would be helpful in student's personal as well as professional life.

Thanking You,
