## About the Author

Dr. F. B. Sayyad

Is presently Professor in the Department of Mechanical Engineering, Dr. D. Y. Patil School of Engineering, Lohegaon, Pune. With nearly two decades of teaching experience, he has authored books on Theory of Machine-I, Theory of Machine-II, Dynamics of Machinery and Mechanical Vibration & Noise Engineering. He was formerly author of Tech-Max Publication and has published more than 30 books for various universities in India (SPPU, MU, GTU, UPTU, PTU, RGTU, BATU & SU). He has published several research papers in reputed national and ational Journals and conferences. He has been granted two Australian Patents and Published Five Patents in India. He is also a member of various national bodies on technical education and also working as editorial board

Strictly as per the New Revised Syllabus (2019 course) of Savitribai Phule Pune University w.e.f. academic year 2020-2021

# *About the Authors*

Dr. Janak Valaki, is working as Associate Professor in Mechanical Engineering Department of Government Engineering College, Bhavnagar, which is affiliated to Gujarat Technological University, Ahmedabad (GTU). Earlier, he worked as Assistant Professor with L.D. College of Engineering, Ahmedabad for 6 years. He is having total 15 years of academic teaching experience at various levels.

Currently, Dr. Janak Valaki is supervising 06 PhD research projects as principal supervisor and 03 PhD research projects as Co-Supervisor. He has published three books, one Book Chapter with Springer Nature Publications, Switzerland; 10 international journal papers in highly reputed and renowned research journals of Elsevier, Springer, Taylor & Francis, IMechE etc.; 07 International conference papers and 06 national conference papers. He is also a recognized reviewer for the Elsevier, Springer, Taylor & Francis, IMechE, ASME, SME, Inderscience journals.

Dr. Mrunal D. Chaudhari, is working as Assistant Professor in Mechanical Engineering Department of L. D. College of Engineering, Ahmedabad, which is affiliated to Gujarat Technological University, Ahmedabad (GTU). Earlier, he has worked as Assistant Professor with Indus University, Ahmedabad for 2 years. He is having total 10 years of academic teaching and research experience at various levels.

He has been honored with B.E. in Metallurgical Engineering, by College of Engineering, Pune; and PhD in Materials Science and Engineering by University of North Texas, Denton, USA. He has also worked as Postdoctoral Fellow with University of Texas at Austin, USA for one year.

Currently, Dr. Mrunal Chaudhari is supervising 04 PhD research projects as principal supervisor and 02 PhD research projects as Co-Supervisor. He has published 01 book, 02 patents, 06 international journal papers in highly reputed and renowned research journals of Elsevier, Springer, Taylor & Francis etc and 06 International conference papers.

Dr. F. B. Sayyad, is Principal in Dr. D. Y. Patil School of Engineering, Lohegaon, Pune. With nearly two decades of teaching experience, he has authored books on Theory of Machine-I, Theory of Machine-II, Kinematics of Machinery, Manufacturing Processes, Dynamics of Machinery and Mechanical Vibration & Noise Engineering. He was formerly author of Tech-Max Publication and has published more than 30 books for various universities in India (SPPU, MU, GTU, UPTU, PTU, RGTU, BATU & SU). He has published several research papers in reputed national and international Journals and conferences. He has published two Patents in Intellectual Property India. He is also a member of various national bodies on technical education and also working as editorial board member and reviewer of various international journals.

# Performance Analysis of DWT Based Video Watermarking Algorithm on FPGA di Saniya Ansari, Swati Khawate

⊠ f 💆

Editore: LAP LAMBERT Academic Publishing

EAN: 9786204211183 ISBN: 6204211188 Pagine: 124 Formato: Paperback

Digital video watermarking was introduced at the end of the last century to provide means of enforcing video copyright protection. Video watermarking involves embedding secret information (data) in the video. Here Discrete Wavelet Transform (DWT) to authenticate the multimedia image and LSB algorithm to insert the bits of the hidden message or image into the least significant bits of the pixels.Xilinx Spartan3 Field Programmable Gate Array (FPGA) device using embedded development kit (EDK) tools from Xilinx used to implement the presented algorithm. To check effectiveness of this leggi di più

### Noisy Satellite Image Enhancement with wavelet Transforms

LAP Lambert Academic Publishing (2021-10-14)

€ 39,90

Buy at the MoreBooks! Shop

In this book the technique for resolution and contrast enhancement of satellite geographical images based on discrete wavelet transform (DWT), stationary wavelet transform (SWT) and singular value decomposition (SVD) has been proposed. In this, for low resolution and low contrast image, how median filter is used to remove noise is explained. This noiseless low resolution, low contrast image is decomposed into four sub-bands using DWT and SWT. The resolution enhancement is based on the bicubic interpolation of high frequency components obtained by DWT. SWT is used to enhance the input image. All sub-bands are reconstructed as high resolution image by using inverse DWT (IDWT). For contrast enhancement the technique uses DWT and SVD. All sub-bands are reconstructed using IDWT to generate high resolution and high contrast image over conventional techniques. The peak signal-to-noise ratio and root mean square error are then calculated.
