Webinar on “Machine Learning Using Python” Report

Name of the Event: Webinar on “Machine Learning Using Python”

Date: 01/09/2021

Time: 2.00 PM to 03.00 PM

Mode: Microsoft Team

Students: Students from SE & TE Computer Engineering and AI& DS Department

Report:

Computer Engineering Department organized a Webinar on “Machine Learning Using Python” for one hour from 2.00 PM to 03.00 PM for SE & TE Students (313) of Computer Engineering and AI& DS Department. The lecture was headed by Mr. Manish Singh who is working in ATS Learning Solution, Microsoft.

The session started with Mr. Manish Singh explaining basics of Artificial Intelligence (AI), Machine Learning (ML) and Data Science (DS) are the pillars of the fourth industrial revolution. ML is an application of AI which allows computers to automatically learn from data without being explicitly programmed. Python has been designed with the provision for creating Machine Learning algorithms. Python is preferred as the best and robust platform for Machine Learning systems. Python also has numerous libraries for machine learning, data manipulation and analysis as well as a very active development community that continuously updates and creates new packages. It has been adopted by a wide variety of industries and applications including Data Science, Machine Learning, Data Analytics, Predictive Analytics, Business Intelligence and Web Analytics. This workshop aims to explore Python Programming right from installation, fundamentals to Machine Learning algorithms.

The Webinar covered the basic algorithm that helps us to build and apply prediction functions with an emphasis on practical applications.

The session was followed by student questions where they inquired more Machine Learning (ML) Using Python and its scope.

Webinar on “Cyber Secure India Awareness Campaign (Cyber Security Audit Course 5)” Report

Name of the Event: Webinar on “Cyber Secure India Awareness Campaign (Cyber Security Audit Course 5)”

Date: 26/09/2021

Time: 12.00 PM to 01.30 PM

Mode: Zoom Meeting

Students: Students from TE Computer Engineering Department

Report:

Computer Engineering Department organized a Webinar on “Cyber Secure India Awareness Campaign Webinar 2021 (Audit Course 5 - Cyber Security)” in association with CYBER NINJA” for one and half hour from 12.00 PM to 01.30 PM for TE Students (179) of Computer Engineering Department. The session was headed by Mr. Rahul Gupta is a renowned Cyber Security Expert.

The session started with the speaker - Mr. Rahul Gupta explores Cyber Security issues and introduces the audience to cyber issues and the growing threats they pose. He cited the sudden explosion on social networking sites as a growing Cyber Security concern. In view of the list of 52 prohibited Chinese submissions provided by the Ministry of Home Affairs of the Government of India; He explained how easily cyber threats put someone in a vulnerable situation that can be exploited by cyber criminals. He explains the role and threats of antiviruses and firewalls and identifies key areas where people can be easily fooled.

The session continued, with Mr. Rahul Gupta showing the various activities that were being carried out creating false illusions that lead to cyber-attacks, i.e. phishing, spam calls or fraudulent calls, Refunds via email, skimming scams, WhatsApp security breaches and IP-causing website redirects the address to be available. He also suggests solutions to email security issues Breakthroughs, honey capture, geotagging, and more. The second half of the event has Keynote speakers answered questions and doubts from students.

Report:

Computer Engineering Department had organized a Guest Lecture by Dr Nitin More. The lecture was organized on Microsoft Teams Online Platform on 21st September 2021 Tuesday from 11.00 AM to 1.00 PM where Dr. Nitin was addressing from Vijaywada, Andhrapradesh.

He is presently working as an Associate Professor at K L Vijaywada University, in Adharpradesh, India.

The topic of discussion was "AWS Cloud Hands on activities ", which was his skilled area and topic domain for research. In the beginning, he explained the different cerification courses in cloud and then he explained all the handling activities of AWS cloud with real time prespective. The knowledge he shared was extremely vital as the students got to know the real world implementation of an AWS Cloud.

Dr.Nitin is Doctrate in Comuter network from SPPU. He was Head of department in SKN College of Pune University. Students asked him number of technical queries, queries related to Certification, use of AWS Cloud for BE Project, Other Cloud services and his experiences etc. Dr. Nitin gave complete guidance on various queries. The audience expressed that the lecture was very informative. The lecture was appreciated by Dr Pankaj Agarkar-HOD and all the staff members of the department. The event coordination and anchoring was done by Prof Komal Jakotiya.

Webinar on “Cyber Secure India Awareness Campaign (Cyber Security)” Report

Name of the Event: Webinar on “Cyber Secure India Awareness Campaign (Cyber Security)”

Date: 10th Oct 2021

Time: 12.00 PM to 01.30 PM

Mode: Zoom Meeting

Students: Students from SE, TE Computer Engineering and SE AI & DS Department

Report:

Computer Engineering Department organized a Webinar on “Cyber Secure India Awareness Campaign (Cyber Security)” in association with CYBER NINJA” for one and half hour from 12.00 PM to 01.30 PM for SE Students (180) of Computer Engineering and SE AI & DS Department. The session was headed by Mr. Rahul Gupta is a renowned Cyber Security Expert.

The session started with the speaker - Mr. Rahul Gupta explores Cyber Security issues and introduces the audience to cyber issues and the growing threats they pose. He cited the sudden explosion on social networking sites as a growing Cyber Security concern. In view of the list of 52 prohibited Chinese submissions provided by the Ministry of Home Affairs of the Government of India; He explained how easily cyber threats put someone in a vulnerable situation that can be exploited by cyber criminals. He explains the role and threats of antiviruses and firewalls and identifies key areas where people can be easily fooled.

The session continued, with Mr. Rahul Gupta showing the various activities that were being carried out creating false illusions that lead to cyber-attacks, i.e. phishing, spam calls or fraudulent calls, Refunds via email, skimming scams, WhatsApp security breaches and IP-causing website redirects the address to be available. He also suggests solutions to email security issues Breakthroughs, honey capture, geotagging, and more. The second half of the event has Keynote speakers answered questions and doubts from students.

FACTORS THAT MAKE COMPANIES VULNERABLE TO ATTACKS

Insufficient Security Training

Employees of an organization might not possess knowledge of social engineering tricks that an attacker might implement to lure them in revealing organization's sensitive data. Therefore, the minimum responsibility of any organization is to educate their employees about social engineering techniques and the threats associated with them to prevent social engineering attacks from occurring.

Unregulated Access to the Information

For every company, one of the main assets is its database. Providing unlimited access or allowing everyone to access the sensitive data stored in database might land you in trouble. Therefore, companies must ensure proper surveillance and provide training for key personnel who have access to sensitive data.

Several Organization Unit

Some organizations might have their units at different geographic locations. This makes the system management more cumbersome, thereby making an attacker's task easy to grab the organization's sensitive information.

Lack of Security Policies

Security Policy is the foundation of a security infrastructure. It is a document describing the security controls implemented in a company at a high level. An organization should take extreme measures related to every possible security threat or vulnerability. Implementation of certain security measures, such as password change policy, information sharing policy, access privileges, unique user identification and centralized security proves to be beneficial.

WHY IS SOCIAL ENGINEERING EFFECTIVE?

- Despite the presence of various security policies, you cannot prevent people from being socially engineered since the human factor is most susceptible to variation
- It is difficult to detect social engineering attempts. Social engineering is an art and science of getting people to comply with one's wishes. Often, this is how attackers get the foot inside a corporation's door
- No method can guarantee complete security from social engineering attacks
- No specific hardware or software is available to defend against social engineering
- This approach is relatively easy to implement and free of cost

Report:

Computer Engineering Department organized a Seminar on “ICT(LMS)” for one hour from 11.00 AM to 12.00 PM for SE, TE, BE Students of Computer Engineering and AI& DS Department(256). The lecture was headed by Prof. Nilesh Mali who is working in DYSOE as Assistant Professor.

A Learning Management System (LMS) can provide tremendous benefits both for the training department and for the organization in general. Just what are the LMS basics and how can a system help your organization? In basic terms, the LMS is a system that helps you deliver and manage training in numerous formats. First, the management system consists of the tracking and reporting of the organization and individual learning activities.

If a learner takes a course and passes the test, we conclude that they have gained the necessary knowledge and are ready to practice it and make a change. The ultimate goal of learning is a change of behavior in work-related tasks, which results in desirable changes for the business. It takes no effort to address these tasks with LMS reports because they are typically out-of-the-box solutions. Also, they can support data layout and make your statistics neatly organized and structured on templates.

Guest Lecture on Theory of Computation Report

Name of the Event: Guest Lecture on Theory of Computation

Date: 10/12/2021

Time: 10:00 AM to 12:00 PM

Mode: Microsoft Team

Students: Students of TE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Theory of Computation" on 10th Dec 2021 from 10:00 AM to 12:00 PM for TE Students of Computer Engineering. The lecture was headed by Prof. Anuradha Yenikar who is Senior faculty in PICT, Pune.

The session started with Prof. Anuradha Yenikar explaining the Introduction to Theory of Computation, what are the applications of Theory of Computation. After this she has covered Computability & Complexity Theory. She took examples of Computability & Complexity Theory to explain the students, how it works. Her way of teaching was very lucid which made every bit of Computability & Complexity Theory easy and it also attracted the student's attention. She took different methods to explain Computability & Complexity Theory so as to make the concept easily understandable to everyone. She even cleared the doubts of students regarding various problems.

The points covered are:

Computability Theory: Decidable problems and Un-decidable Problems, Church-Turing Thesis, Reducibility: Un-decidable Problems that is recursively enumerable, A Simple Un-decidable

Complexity Classes: Time and Space Measures, The Class P, Examples of problems in P, The Class NP, Examples of problems in NP, P Problem Versus NP Problem, NP-completeness and hard Problems.

The session was followed by student questions where they inquired about ways to develop logic of solving a given problem.

Guest Lecture on Data Analytics Report

Name of the Event: Guest Lecture on Data Analytics

Date: 15/11/2021

Time: 11:00 AM to 01:00 PM

Mode: Microsoft Team

Students: Students of BE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on “Advanced Analytics-Technology and Tools” used in Data Analytics on 15th Nov 2021 from 11:00 AM to 01:00 PM for BE Students of Computer Engineering. The lecture was headed by Mr. Suraj Kurde who is faculty in Dr. D. Y. Patil School of Engineering, Akurdi, Pune.

The session started with Mr. Kurde explaining the Introduction of data analytics and role of big data in DA, what are the applications of data analytics. After this he has started hadoop ecosystem and covered Hive, Pig, HBase and Mahout. He discussed real time scenarios for explaining the concept to the students. His way of teaching was very lucid which made every bit of advanced analytics technology and tools used in data analytics easy and it also attracted the student's attention. He also shown the practical demo of working of all tools and also shared the study material and code with students so that they can run it individually. He even cleared the doubts of students.

The points covered are:

1. Analytics for Unstructured Data (Map Reduce, Apache Hadoop)
2. The Hadoop Ecosystem (Pig, Hive, HBase, Mahout)
3. NoSQL

The session was followed by student doubts and queries where they inquired about ways to develop logic of solving a given problem using MapReduce.

10.1 Analytics for Unstructured Data
10.1.2 MapReduce

- The MapReduce paradigm breaks a large task into smaller tasks, runs the tasks in parallel, and consolidates the outputs of the individual tasks into the final output.
- Map
 - Applies an operation to a piece of data
 - Provides coarse-grained output
- Reduce
 - Consolidates the intermediate output from the map step
 - Provides the final output
 - Each step uses key-value pairs, followed by key-value as input

10.2 The Hadoop Ecosystem

10.2.4 Mahout

- Mahout permits the application of analytical techniques within the Hadoop environment
- Mahout provides Java code that implements the usual classification, clustering, and recommenders/collaborative filtering algorithms
- Users can download Apache Hadoop directly from www.apache.org or use commercial packages
 - For example, the Pivotal company provides Pivotal HD Enterprise

10.2.1 Pig

- Pig consists of
 - A data flow language called Pig Latin
 - An environment to execute the Pig code
- Example of Pig commands

```

$ pig
grunt> records = LOAD '/user/customer.txt' AS
    (cust_id:INT, first_name:CHARARRAY,
    last_name:CHARARRAY,
    email_address:CHARARRAY);
grunt> filtered_records = FILTER records
    BY email_address MATCHES '.*@sap.com';
grunt> STORE filtered_records INTO '/user/sap_customers';
grunt> quit

Guest Lecture on Data Analytics Report

Name of the Event: Expert Lecture on Data Analytics

Date: 23/11/2021

Time: 10:30 AM to 02:30 PM

Mode: Microsoft Team

Students: Students of BE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Advanced Analytics-Technology and Tools" used in Data Analytics on 23rd Nov 2021 from 10:30 AM to 02:30 PM for BE Students of Computer Engineering. The lecture was headed by Mrs. Bhavana Khivsara who is faculty in SNJB's Late Sau. K. B. Jain College of Engineering, Chandwad, Nashik.

The session started with introduction of guest by Prof. Prashant Mandale and continued by Mrs. Bhavana with introduction of data analytics and role of classification in data analytics, use and applications of classification. After this she has started the Decision Tree and Naïve Bayes algorithms used in data analytics for classification. She discussed real time scenarios for explaining the concept to the students. Her way of teaching was very lucid which made every bit of classification algorithms used in data analytics easy to understand and it also attracted the student's attention. She also shown the practical demo of working of all algorithms and also shared the study material with students so that they can practice it individually. She even cleared the doubts of students.

The points covered are:

1. Introduction of supervised and unsupervised learning
2. Role and applications of classification
3. Overview of decision trees, general algorithm, decision tree algorithm, evaluating a decision tree.
4. Naïve Bayes Algorithm, Naïve Bayes Classifier, smoothing, diagnostics.
5. Diagnostics of classifiers and additional classification methods

The session was followed by student doubts and queries where they inquired about ways to develop logic of solving a given problem using MapReduce.

CART

- CART (or Classification And Regression Trees)
- Similar to C4.5, CART can handle continuous attributes.
- Whereas C4.5 uses entropy based criteria to rank tests, CART uses the Gini diversity index defined in Equation

$$Gini_x = 1 - \sum_{x \in X} P(x)^2$$

- CART constructs a sequence of subtrees, uses cross-validation to estimate the misclassification cost of each subtree, and chooses the one with the lowest cost.

Guest Lecture on Computer Networks and Security

Name of the Event: Guest Lecture on Computer Network and Security

Date: 3/12/2021

Time: 11:00 AM to 1:00 PM

Mode: Microsoft Team

Students: Students of TE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Computer Network and Security" on 3rd Dec 2021 from 11:00 AM to 1:00 PM for TE Students of Computer Engineering. The lecture was headed by Prof. Swati Sinha who is Senior faculty in SNJB COE, Chandwad, Nasik.

The session started with Prof. Swati Sinha explaining the Introduction to Computer Network and Security, what are the applications of Computer Network and Security.. After this she has covered Cryptography . She took examples of Symmetric and Asymmetric Key to explain the students, how it works. Her way of teaching was very lucid which made Cryptography easy and it also attracted the student's attention. She took different methods to explain Symmetric and Asymmetric Key Theory so as to make the concept easily understandable to everyone. She even cleared the doubts of students regarding various problems.

The points covered are:

Security

Introduction, Security services, Need of Security, Key Principles of Security, Threats & Vulnerabilities, Types of Attacks, ITU-T X.800 Security Architecture for OSI, Security Policy & mechanisms, Operational Model of Network Security, Symmetric and Asymmetric key Cryptography.

Security in Network, Transport and Application: Introduction of IPSec, SSL, HTTPS, S/MIME, Overview of IDS & Firewalls .

The screenshot shows a Microsoft Teams meeting window. The title bar reads 'CN & S Guest Lecture'. The top navigation bar includes a 'Request control' button and icons for chat, call, and other functions. A notification banner at the top states 'You're recording You are recording this meeting. Be sure to let everyone know that t...' with a 'Dismiss' button. Below the banner, a row of participant avatars is visible, including 'swati sinha (Gu...', 'D91 - ROH...', 'D105 - SHIS...', and 'AC'. The main content area displays a slide titled 'Network Security' with the following text:

• The security problems in the *networks* may be subdivided in four categories:

- confidentiality
- authenticity
- non repudiation
- integrity

• **confidentiality** : requires that information sent on the network only be accessible for reading to authorized parts.

• **authenticity**: requires that it is possible to verify the identity of the subjects involved in the communication.

• **non repudiation** : requires that it is impossible to repudiate the sending of message.

• **integrity** : requires that the received message is the same respect to that sent.

On the right side, the 'Participants' pane shows a search bar, a 'Share invite' button, and a list of participants. Under 'Presenters (2)', there are 'amruta chitari Organizer' and 'swati sinha (Guest) Meeting guest'. Under 'Attendees (70)', several names are listed, including '118 - OMKAR SHARAD NAN...', 'Alisha Shaikh', 'Arbaz Sayyed', 'D1 - HARJOUT KAUR', 'D102 - SHINDE NAMDEV', and 'D104 - SHINDE SHREYA'. The bottom of the window shows the Windows taskbar with the search bar and various application icons. The system clock in the bottom right corner indicates '11:11 03-12-2021'.

Guest Lecture on Theory of Computation Report

Name of the Event: Guest Lecture on Theory of Computation

Date: 10/12/2021

Time: 10:00 AM to 12:00 PM

Mode: Microsoft Team

Students: Students of TE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Theory of Computation" on 10th Dec 2021 from 10:00 AM to 12:00 PM for TE Students of Computer Engineering. The lecture was headed by Prof. Anuradha Yenikar who is Senior faculty in PICT, Pune.

The session started with Prof. Anuradha Yenikar explaining the Introduction to Theory of Computation, what are the applications of Theory of Computation. After this she has covered Computability & Complexity Theory. She took examples of Computability & Complexity Theory to explain the students, how it works. Her way of teaching was very lucid which made every bit of Computability & Complexity Theory easy and it also attracted the student's attention. She took different methods to explain Computability & Complexity Theory so as to make the concept easily understandable to everyone. She even cleared the doubts of students regarding various problems.

The points covered are:

Computability Theory: Decidable problems and Un-decidable Problems, Church-Turing Thesis, Reducibility: Un-decidable Problems that is recursively enumerable, A Simple Un-decidable

Complexity Classes: Time and Space Measures, The Class P, Examples of problems in P, The Class NP, Examples of problems in NP, P Problem Versus NP Problem, NP-completeness and hard Problems.

The session was followed by student questions where they inquired about ways to develop logic of solving a given problem.

Guest Lecture on Discrete Mathematics

Name of the Event: Guest Lecture on Discrete Mathematics

Guest Lecturer: Dr. Shabana F. Sayyad

Day & Date: Monday 13/12/2021

Time: 02:30PM to 04:30 PM

Mode: Microsoft Team

Students: Students of SE Computer Engineering

Report:

Department of Computer Engineering has organized a Guest Lecture on "Discrete Mathematics" on Monday 13th Dec 2021 from 02:30PM to 04:30 PM for SE Students of Computer Engineering. The lecture was headed by Dr. Shabana F. Sayyad who is senior faculty in AISSMS, Pune.

The session started with Dr. Shabana F. Sayyad explaining the introduction to Algebraic Structures and Coding Theory, basic definitions related to the Algebraic Structures. After this she has covered the structure of algebra with Algebraic System. She has a firm grip on the content of the module and presents it in a nice way. She explains the basic Algorithms from the Discrete Mathematics. Her way of teaching & explaining the problems based on algorithms was very lucid which made the topic to understand easy and it also attracted the student's attention so as to make the concept easily understandable to everyone. She even cleared the doubts of students regarding various problems.

The points covered are:

Algorithms and Problems on it: Single source shortest path-Dijkstra's Algorithm, Kruskal's & Prim's Algorithm.

Algebraic Structures and Coding Theory: Algebraic System, Semi Groups, Monoids, Groups.

Graph Theory: Graph Terminology & types of Graphs, Graphs Isomorphism, Euler and Hamilton Paths, the handshaking lemma, Graph Coloring.

The session was followed by student questions where they inquired about ways to develop logic of solving a given problem.

Seminar on “How to bridge gap between academics and industry(Technical) by Alumni” Report

Name of the Event: Seminar on “How to bridge gap between academics and industry(Technical) by Alumni”.

Date: 13/05/2022

Time: 10.00 AM to 11.00 AM

Mode: Offline

Students: Students from SE,TE,BE Computer Engineering and AI& DS Department

Report:

Computer Engineering Department organized a Seminar on “**How to bridge gap between academics and industry(Technical)**” for one hour from 10.00 AM to 11.00 AM for SE ,TE,BE Students of Computer Engineering and AI& DS Department(87). The lecture was headed by Ms. Shreya Lad who is working in LTI Airoli .

When studying in colleges, students are not aware about workplace expectations. Hence awareness is to be created by exposing them with real-time workplace. Internships works very well to bridge the gap between academia and industry, some of the universities in India (ex: VTU) has already made it mandatory as a part of engineering curriculum. By working on internship, engineering graduates not only learn in terms of their job expectations but also learn about other behavioral aspects. These behavioral aspects include written and oral communication with colleagues and seniors, taking complete ownership of the given work, delivering quality output and learning on real-time tasks. Also by attending company level common activities like team meeting, offsite-workshops and company all-hands meeting interns can build big picture of how an organization functions.

Along with internship students can be made aware about the corporate world by having different engagement programs with the industry. Some of them include having guest lectures by experts, 1:1 mentoring, having experts as project guide, having industry experts as extended faculty etc.

Every individual must take a step to improve their capabilities which include students, faculty and organizations. The learning attitude is yet to be cultivated by different mechanisms using which individual can continue to enhance their knowledge and skills. This will also help an individual to become a life-long learner and adapt to changes as they face in future. With new technologies disrupting traditional ways (ex: Artificial Intelligence), having a learner mindset makes a huge difference.

The session was followed by student questions where they inquired more about how to bridge gap between academics and industry and its scope.

Semester-I

Name of the event: **PCB Design and Circuits**

Date and Time	03.12.2021
Event Venue	Online (MS Teams App)
Organized by	E&TC Department
Targeted Audience	BE Class (E&TC)
Resource Person	Mrs.Aarti Zope (Software Trainer)

Event Contents:

How to design PCB layout and circuits.

Details of the event:

Mrs. Aarti Zope is software trainer for embedded design, MATLAB, Python and OrCAD. She is working as Software trainer from June 2017. She has completed BE in E&TC in 2013. She has completed ME (VLSI and Embedded system) in 2017 from Dr. D Y Patil School of Engineering.

In the online webinar, she started with basics of software used. How to install the software with all necessary steps were explained by her. Then she explains how to start with basic circuits with basic components for PCB layout. Even we can observe the output waveforms with the help of software OrCAD. She also taken few examples of circuits and showed the students how to place them in software. She concluded the session by answering student's queries. Vote of thanks was given by Prof. Ashwini Bagde.

Event Report

Academic Year: 2021-22

Semester-I

1. Name of the event: Workshop on "Demonstration of Additive Manufacturing Technology"

Date and Time	27 th August 2021 & 02.00 pm to 03.00 pm
Event Venue	Microsoft Team Link
Organized by	Mechanical Department
Audience	122 (S.E Students)
Resource Person	Mr. Swarnim N Gupta

2. Event Contents:

1. Introduction to 3D printing
2. Why use 3D printing
3. Conceptualization
4. Marketing
5. Advantages and Application of 3D Printer

3.1 Details of the event:

A Workshop on "**Demonstration of Additive Manufacturing Technology**" for Second Year students of Department of Mechanical Engineering, Dr D Y Patil School of Engineering, Lohegaon, Pune. The presentation will be conducted by Mr. Swarnim N Gupta, GM, ENPRO Industries Pvt. Ltd., Pune.

3.2 Introduction to 3D Printing

3D printing is a form of additive manufacturing technology where a three dimensional object is created by laying down successive layers of material. It is also known as rapid prototyping, is a mechanized method whereby 3D objects are quickly made on a reasonably sized machine connected to a computer containing blueprints for the object. The 3D printing concept of custom manufacturing is exciting to nearly everyone. This revolutionary method

for creating 3D models with the use of inkjet technology saves time and cost by eliminating the need to design; print and glue together separate model parts. Now, you can create a complete model in a single process using 3D printing. The basic principles include materials cartridges, flexibility of output, and translation of code into a visible pattern.

3.3 Benefits of 3D Printing

- The most successful companies have adopted 3D printing as a critical part of the iterative design process to:
- Increase Innovation
 - Print prototypes in hours, obtain feedback, refine designs and repeat the cycle until designs are perfect.
- Improve Communication
 - Hold a full colour, realistic 3D model in your hands to impart infinitely more information than a computer image.
 - Create physical 3D models quickly, easily and affordably for a wide variety of
- Applications.
- Speed Time to Market
 - Compress design cycles by 3D printing multiple prototypes on demand, right in your office.
- Reduce Development Costs
 - Cut traditional prototyping and tooling costs.
 - Identify design errors earlier.
 - Reduce travel to production facilities.

We, the Students of third year and final year Mechanical Engineering are extremely thankful to Hon. Principal **Dr. F B Sayyad** of DYPSOE, Lohegaon, Pune. We would like to specially thank to our HoD **Prof. R N Garad**; all staff & student coordinators for providing a full-fledged support in all aspects during the entire expert lecture.

We thankful to **Dr D S More** and **Dr. M I Ansari**, has supported and guided us to make this lecture successful.

Academic Year: 2021-23 Semester-I

Name of the event: A SEMINAR ON "TEAM BUILDING FOR GO-KART"

Date and Time	September 23 rd 2021: 2:00 pm-03:00 pm
Event Venue	Microsoft Team
Organized by	Mechanical Engineering Department
Targeted Audience	SE,TE,BE

EVENT CONTENTS:

Department of Mechanical Engineering of **DYPSOE** in association with **Edgeline Championship, Pune** has organized a seminar on **Team Building for Go-Kart**. The leading objectives of this seminar are to develop design skills, problem-solving capabilities, enhance the team-building activity, and improve management skill

This seminar is delivered by Mr. Dhiraj Gaikwad COO of Wisdomatic Swarm, Ms Affrin Sayyed CFO of Wisdomatic Swarm and Onkar Borkar CIO and CMO of Wisdomatic Swarm.

DETAILS:-

To begin with, Mahith Mudaliyar greeted everyone at the webinar and welcomed all the guests. The portal was then handed to Mr. Dhiraj He initiated by enlisting the different types of vehicle events that are conducted in India. He carefully elaborates the importance of the Go-Kart Event. Along with this he also instilled the importance of value addition, a student should try to gain skills related to the field, should get the certification of those skills which are relevant to the industry. He also shared his experience of Go-Kart making in his college life and how it will be helpful for industrial application.

The second half of the webinar was taken by Mr. Afreen Sayyid, She elaborates the structure of the Ideal Go- Kart team along with the Different departments. She also laid out a simple algorithm a student should follow while developing the cart, which was to start with "WH", question everything in what, why, when, etc., using this method clarifies any concept and makes it easy to develop a new idea. She debunked all the myths related to Go-Kart.

Total 116 students and 5 Faculties attended this online session. The session was coordinated by Prof. V. M Ghule (Go-Kart faculty Advisor) under the guidance of Prof. R N Garad (HoD Mechanical Engineering) and Dr. F B Sayyad (Principal DYP SOE)

Report:

Computer Engineering Department organized a Seminar on “ICT(LMS)” for one hour from 11.00 AM to 12.00 PM for SE, TE, BE Students of Computer Engineering and AI& DS Department(256). The lecture was headed by Prof. Nilesh Mali who is working in DYSOE as Assistant Professor.

A Learning Management System (LMS) can provide tremendous benefits both for the training department and for the organization in general. Just what are the LMS basics and how can a system help your organization? In basic terms, the LMS is a system that helps you deliver and manage training in numerous formats. First, the management system consists of the tracking and reporting of the organization and individual learning activities.

If a learner takes a course and passes the test, we conclude that they have gained the necessary knowledge and are ready to practice it and make a change. The ultimate goal of learning is a change of behavior in work-related tasks, which results in desirable changes for the business. It takes no effort to address these tasks with LMS reports because they are typically out-of-the-box solutions. Also, they can support data layout and make your statistics neatly organized and structured on templates.

Name of the Event	"Effective Seminar on Importance & Guidance of DBMS for Training & Placement Activities for TE B students"
Date and Time	03 rd Aug 2022, 03.00 PM Onwards
Event Venue	Lab 330
Organized by	Computer Engineering Department
Targeted Audience	TE Students

Details of the event:

Computer Engineering Department had organized "Effective Seminar on Importance & Guidance of DBMS for Training & Placement Activities for TE B students" on 03rd August 2022, Wednesday from 03.00 PM onwards at Lab 330.

Prof. Minal C.Toley (Asst. Prof. Computer Engg. Dept. DYPSOE) was the invited speakers for this Training Program. Prof. Minal C.Toley gave the seminar on importance of DBMS in the IT. She explains about the feature of DBMS, the topics covered from the same. She covered the basic concept like Queries, Normalization about Database Management Systems which is having higher weightage in syllabus. The queries raised by the attendees were satisfactorily solved by the speakers. The event was beneficial to the students as they got to understand the important functionalities of DBMS for Computer Engineering.

Seminar on Data science, Analytics And Machine Learning

Name of the Event: Seminar on Data science, Analytics And Machine Learning

Date: 18th Aug 2022

Time: 11.00AM to 1.00PM.

Mode: Offline

Students: Students from TE Computer Engineering Department

Guest Speaker: Mr. Pravin Mhaske

Report:

Computer Engineering Department organized "**Seminar on Data science, Analytics And Machine Learning**" for TE Students of Computer Engineering Department. The session was headed by Mr. Pravin Mhaske, Infosys having 21 years' of experience in Data Science along with ML practice.

The session started with the speaker Mr. Pravin Mhaske explores Data science, Analytics And Machine Learning Concepts and introduces the audience to various technologies and resources for data science specialization and Machine Learning. He also explained various job opportunities in those fields. This session will helpful for students to know about requirements of data science are python programming language, database and SQL.

Organized by	Department of Engineering Sciences (F.E.) – Awes Ansari
Targeted Audience	Newly admitted students of First Year Engineering of Batch 2021-22
Resource Person	Prof. Awes Ansari Professor Dr.D.Y.Patil School of Engineering , Pune.

Details of the event:

Department of Engineering Sciences (FE) in association with FESA, has organized session:
"Seminar on Soft Skills required for Engineering Students."
Speaker: Prof. Awes Ansari Professor , Dr.D.Y.Patil School of Engineering , Pune.

Audience: FE students (Division A to D)

Date & Day: 15/12/2021, Tuesday

Time: 02.00 pm to 03:00 pm.

Platform: MS team (Online)

1. Event objective:

Soft skills play an important role in resume writing, interviewing and finding success in communicating with people at work and in other areas of your life. Soft skills are often transferable across careers and industries. As a result, you may find that you possess many of the required traits even if you don't match the exact profile in a job description. As you search for jobs, pay special attention to posts calling for candidates with soft skills or traits you possess. Even if the job title isn't a great fit, you may find that the description makes sense for you. As you progress through the job search process, keep your resume updated to reflect soft skills most relevant to the jobs you're applying for.

2. Event Content:

The event notice is circulated to students with prior instructions one week before. The session was started sharp at 03:00 pm. The workshop started with a basic introduction of softskills, Importance of Communication and types of communication and its importance, Problem solving techniques, importance of team work, critical thinking, very importantly time management & decision making is explained for the students. Also we have guided them. How to handle stress of lecture, practical and exams.

Also some Good Basic Life Lessons are given to students regarding their responsibility as students. How to develop important soft skills. Technical competency is the core of your career in engineering.

Guided them regarding Myers-Briggs Indicators test and provided them the free Test link so that by giving test they can check their personality type and develop themselves accordingly. Most importantly guided them regarding ethics and standard practice should be followed in student life.

As a feedback, the participants appreciated the event. A few students shared their experiences as very useful, informative and excellent. The participants will look forward to attend similar sessions in future.

Details of the event:

Department of Engineering Sciences (FE) in association with FESA has organized session:
"Yoga & Meditation for Health and Well Being"
Guest Speaker: Dr. Shobha Rupanar, Yoga Teacher and Evaluator, Pune.

Audience: FE students (Division A to D)
Date & Day: 15/12/2021, Tuesday
Time: 11.00 am to 12:00 noon.
Platform: MS team (Online)

1. Event objective:

The present-day lifestyle among students' calls for the need for yoga and meditation in order to achieve the overall development of a student. As these two play an important role, they should be inculcated in the student curriculum. Meditation and yoga have direct contribution to improve mental focus and concentration among students.

2. Event Content:

The event notice is circulated to students with prior instructions one day before. The session was started sharp at 11:00 am. The workshop started with a basic introduction of Yoga, Pranayama and Dhyana and their implementation in day-to-day lives, practical demonstration of Sukshama Vyayama, Surya Namaskar, various Asanas, Kapalbhathi and Bhastrika Pranayama. Dr. Shobha Rupanar explained aspects of yoga for enhancing the immunity and the roles played by the eight limbs of yoga like Yama, Niyama, Asana, Pranayama and Pratyahara in life. She also explained that, few minutes of yoga during the day can be a great way to remove stress which accumulates daily, in both, body and the mind. To reduce the stress Yoga postures, Pranayama and meditation are effective techniques. She also gave detailed information about different meditation techniques and hast mudras (Hand Postures) used at the time of yoga. She explained the importance of Music and yoga for mind. She also taught some important yoga exercise like 12 Step & 54 step Surya Namaskar with advanced Power Yoga. In second session, Dr. Shobha demonstrated the different asana and pranayama useful for students in their academic life. The student participants made a demonstration of the Asanas learnt by them in the workshop. They enjoyed the session fully and were greatly benefitted.

As a feedback, the participants appreciated the event. A few students shared their experiences as very enjoyable, useful, informative and excellent. The participants will look forward to attend similar sessions in future. The event was concluded with vote of thanks by Dr. Bhagwad Gidhad.

Event Venue	Online (MS Teams App)
Organized by	E&TC Department
Targeted Audience	TE and BE Class (E&TC)
Resource Person	Miss. Ananya Chattopadhyay

Event Contents:

If we look for the definition, soft skills include **attributes and personality traits that help employees interact with others and succeed in the workplace**. Examples of soft skills include the ability to communicate with prospective clients, mentor your coworkers, lead a team, negotiate a contract, follow instructions, and get a job done on time.

For TE and BE students, it is important to make them realize the importance of soft skills because they will be starting with the placements activity and move to the corporate world.

Our guest lecturer, Miss. Ananya has cleared more than 4-5 company selection process during her final year placements. I wanted her to share her experience during HR rounds and technical rounds with our students so that they will come to know about the process and also the important skills that requires for clearing such HR rounds.

Soft skills include how we present our self, our communication ethics and command over language etc. She also explained how students can groom themselves and few video links she shared which helps students for improvement of soft skills.

Details of the event:

Department of Engineering Sciences (FE) in association with FESA, has organized session: "Seminar on Soft Skills required for Engineering Students."
Speaker: Prof. Awes Ansari Professor , Dr.D.Y.Patil School of Engineering , Pune.

Audience: FE students (Division A to D)

Date & Day: 15/12/2021, Tuesday

Time: 02.00 pm to 03:00 pm.

Platform: MS team (Online)

1. Event objective:

Soft skills play an important role in resume writing, interviewing and finding success in communicating with people at work and in other areas of your life. Soft skills are often transferable across careers and industries. As a result, you may find that you possess many of the required traits even if you don't match the exact profile in a job description. As you search for jobs, pay special attention to posts calling for candidates with soft skills or traits you possess. Even if the job title isn't a great fit, you may find that the description makes sense for you. As you progress through the job search process, keep your resume updated to reflect soft skills most relevant to the jobs you're applying for.

2. Event Content:

The event notice is circulated to students with prior instructions one week before. The session was started sharp at 03:00 pm. The workshop started with a basic introduction of softskills, Importance of Communication and types of communication and its importance, Problem solving techniques, importance of team work, critical thinking, very importantly time management & decision making is explained for the students. Also we have guided them. How to handle stress of lecture, practical and exams.

Also some Good Basic Life Lessons are given to students regarding their responsibility as students. How to develop important soft skills. Technical competency is the core of your career in engineering.

Guided them regarding Myers-Briggs Indicators test and provided them the free Test link so that by giving test they can check their personality type and develop themselves accordingly. Most importantly guided them regarding ethics and standard practice should be followed in student life.

As a feedback, the participants appreciated the event. A few students shared their experiences as very useful, informative and excellent. The participants will look forward to attend similar sessions in future.

Details of the event:

Department of Engineering Sciences (FE) in association with FESA has organized session:
"Yoga & Meditation for Health and Well Being"
Guest Speaker: Dr. Shobha Rupanar, Yoga Teacher and Evaluator, Pune.

Audience: FE students (Division A to D)
Date & Day: 15/12/2021, Tuesday
Time: 11.00 am to 12:00 noon.
Platform: MS team (Online)

1. Event objective:

The present-day lifestyle among students' calls for the need for yoga and meditation in order to achieve the overall development of a student. As these two play an important role, they should be inculcated in the student curriculum. Meditation and yoga have direct contribution to improve mental focus and concentration among students.

2. Event Content:

The event notice is circulated to students with prior instructions one day before. The session was started sharp at 11:00 am. The workshop started with a basic introduction of Yoga, Pranayama and Dhyana and their implementation in day-to-day lives, practical demonstration of Sukshama Vyayama, Surya Namaskar, various Asanas, Kapalbhathi and Bhastrika Pranayama. Dr. Shobha Rupanar explained aspects of yoga for enhancing the immunity and the roles played by the eight limbs of yoga like Yama, Niyama, Asana, Pranayama and Pratyahara in life. She also explained that, few minutes of yoga during the day can be a great way to remove stress which accumulates daily, in both, body and the mind. To reduce the stress Yoga postures, Pranayama and meditation are effective techniques. She also gave detailed information about different meditation techniques and hast mudras (Hand Postures) used at the time of yoga. She explained the importance of Music and yoga for mind. She also taught some important yoga exercise like 12 Step & 54 step Surya Namaskar with advanced Power Yoga. In second session, Dr. Shobha demonstrated the different asana and pranayama useful for students in their academic life. The student participants made a demonstration of the Asanas learnt by them in the workshop. They enjoyed the session fully and were greatly benefitted.

As a feedback, the participants appreciated the event. A few students shared their experiences as very enjoyable, useful, informative and excellent. The participants will look forward to attend similar sessions in future. The event was concluded with vote of thanks by Dr. Bhagwad Gidhad.

Details of the event:

The department of Mechanical Engineering had organized seminar on “**Human Ethics**” for the benefit of pre-final year students of D Y Patil School of Engineering. Mr. Kaustubh Dhawale Alumni of Mechanical Dept, DYPSOE) were the resource persons for this training program.

During the formal inaugural session, Prof.Pooja R Nawathe, Coordinator of Alumni welcomed the gathering and also introduced resource persons to the students.

He explain Professional ethics are values that manage the attitude of a person or group of corporate/professional environment. It also provide guidelines on an environment on how a person should act towards other people and institutions Education is clearly about understanding (what to do?), learning skills (how to do?) and practicing the understanding & skills leading to fulfilment of one's purpose. It is not just about learning skills (how to do?). The subject which deals with “what to do” and “what not to do” is called value education – it facilitates development of Right Understanding. The subject which deals with “how to do” is called technical education or professional education – it facilitates development of skills. As there is a complementarity among them and are required, the priority need to be values, than skills. The impression on students on professional ethics are • Students respect professionalism • Students disagree dismissal of an employee who are against law • Students respect code of ethics Thus, education has an essential impact on the conduct and perception of the ethics of future professionals. Our college conducts a course to teach these skills through program. They include:

1. Positive Thinking

Positive thinking can help a personality in numerous ways. It leads an individual toward confidence and helps in looking for fine things in life. It brings in an innovative perspective that can craft all the difference in the world.

2. Self Esteem

Self-esteem contributes to a noteworthy position in ones motivation and triumph throughout the life. Low self-esteem may seize one back from succeeding in their respective avenues. On a contrast, having a strong self-esteem can help one accomplish because the individual moves across in his life with a positive attitude and believe in accomplishment of goals.

3. Self-Worth

Self-worth is the sense that one has positive qualities and has achieved good milestones in life. It is the sense of an individual's own importance or value as a person. However, there are numerous paths for a human being to value themselves and measure their worth as a human being, and several of these are more psychologically advantageous than others.

4. Self Confidence

One may be affluent and intelligent. But if one does not poise confidence then he cannot come out and speak. Self-confidence is important than the hard work. It can be obtained through practice

5. Goal Setting

Goal setting is the procedure of identifying something that you want to achieve and institute measurable goals in time bounded frames. It involves the growth of an action plan planned to stimulate and guide an individual to boost efficiency.

6. Time Management

“Until we can manage time, we can manage nothing” – Peter Drucker “Life and time are the world’s best teachers. Life teaches us to make good use of time and time teaches us the value of life”- APJ Abdul Kalam Time management is the route of classifying and scheduling how to manage time amid specific activities. Good time management allows an individual to work smarter. There are various methods and skills involved in time management. Few of them include avoiding delay, organizing work-life balance, utilizing waiting time productively; get ready with a ‘To-do list’, prioritizing tasks, and reinstating useless activities with productive activities.

7. Empathy

Empathy is the skill to comprehend another person’s difficulties and point of vision. It is the act of understanding, being responsive of, being aware to, and vicariously experiencing the thoughts, and experience of another of either the past or present without encompassing the feelings, thoughts, and practice fully conversed in a purposive explicit manner

8. Body language

Body language is an important communication skill. It is the unspoken factor of communication that we use to disclose our true emotions and feelings that includes posture, facial expressions and gestures. Positive body language adds vigor to the verbal ideas or messages that one wants to express, it will also help an individual to avoid sending confusing or mixed signals.

9. Team work

It is very significant to have an efficient team leader who motivates the team towards the goal directed behavior. Effective Teamwork includes: • Understanding team goal and objectives • Knowing the roles and responsibilities in the team • Respecting others thoughts, opinions, perspectives • Sharing the knowledge and expertise • Appreciating others contribution • Resolving conflicts with empathy Team work makes Dream works.
